

Chemical Resistance Guide

This document is intended to be used as a guide for chemical compatibility to aid in appropriate equipment selection. The data presented in this guide is based on published data and field experience and believed to be reliable. It is recommended that you cross reference this guide with one or two others guides and contact your chemical supplier or manufacturer.

Some chemical compatibility information may vary based on the size of the tank. We recommend contacting us at 855-998-7345 with any questions regarding this guide.

This corrosion guide is provided as a courtesy by our manufacturing partner, Poly Processing Company.
